

Ultra-Precision Aerospace Manufacturing

Ultra-Precision Aerospace Manufacturing for Critical Components

End-to-end manufacturing solutions from raw material to assembly & testing for aerospace, defence and high-tech industries.

DOWNLOAD BROCHURE →

AS9100D CERTIFIED | ISO 9001:2015 | AIRBUS | BOEING | LOCKHEED MARTIN | TATA AEROSPACE

What We Do

Total end-to-end manufacturing solutions

Raw Material Sourcing

100% traceability, AS9100 certified vendors, bar stocks, castings and forgings.

Structure Fabrication

Cutting, welding, NDT, stress relieving, machining and painting.

Ultra Precision Machining

Multi-axis machining up to 3500 x 2000 mm with aerospace-grade tolerances.

Assembly & Testing

Large CMM inspection, controlled assembly areas and advanced quality systems.

Our Capabilities

5 Axis CNC Solution

Advanced 5-axis CNC machining capabilities for complex aerospace components.

6 Micron Precision

Ultra-precision machining with tolerances as tight as 6 microns.

9000 Kg Component Handling

Heavy-duty component handling capacity up to 9000 kilograms.

Large CMM Inspection

Comprehensive inspection using large Coordinate Measuring Machines.

Thermally Stabilized Environment

Temperature-controlled manufacturing environment for precision work.

AS9100D Quality Systems

Certified aerospace quality management systems for maximum reliability.

Industries We Serve

Precision manufacturing solutions for diverse high-tech industries

Aviation

Space

Renewable

Die Mould

Machine Tool

Transport

Aerospace Tooling

Surgical

Quality & Certifications

Stringent Quality Management Systems

Committed to excellence in aerospace manufacturing

AS9100D & ISO 9001:2015 Certified

Our claim of stringent QMS is guaranteed by our certification from TUV SUD-America for AS 9100D & ISO 9001:2015. This enables us to supply parts of aero structures like empennages, wing structures, fuselages and components for major platforms.

- AS9100D Certified
- ISO 9001:2015 Certified
- Advanced Inspection
- First-Time-Right Process
- Traceability Control
- Skilled Engineering Team
- CMM Inspection
- Height Gauges
- Documentation Control

Shreeram Aerospace & Defence LLP

AS 9100D and ISO 9001:2015

About Shreeram Aerospace

Established in 2017, Shreeram Aerospace & Defence LLP is a leading precision manufacturing company delivering high-quality, reliable and innovative solutions for aerospace, defence and high-tech industries worldwide.

Our state-of-the-art facility and skilled workforce enable us to deliver complex components with exceptional precision and quality, meeting the stringent requirements of the aerospace industry.

300+ Projects Delivered

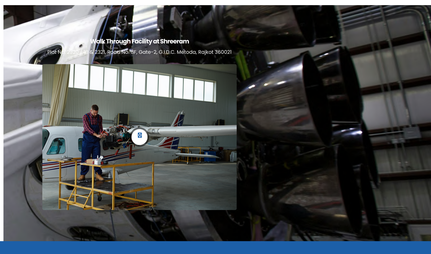

9000kg Max Component Handling

6-10 µm Precision Tolerance

50+ Skilled Professionals
